

#ClimateStrike is on!

November 30th, 2015

A million students for the Climate

If you support the three demands, then Show your Hands and join the global Climate Strike on November 30th, 2015, the first day of the UN Climate Summit in Paris (COP21). Governments are pushing to extract and burn ever more coal, oil and gas (fossil fuels). We must stop this. Time to wake up! Our future is burning! We want to be a million of us coming together on Monday, November 30th to demand:

1. Keep fossil fuels in the ground
2. 100% clean energy transition
3. Support climate-impacted people

Gather your friends and classmates who support the demands, take your Climate Strike picture and upload it to facebook and other social media with the hashtag **#climatestrike**

Please also join us at www.climatestrike.net. We will be in touch with you to work on common actions for our climate during COP21 and in 2016!
